— *The Gardener*, 1915.<sup>[164]</sup>

Tagore was renowned throughout much of Europe, North America, and East Asia. He co-founded Dartington Hall School, a progressive coeducational institution;<sup>[165]</sup> in Japan, he influenced such figures as Nobel laureate Yasunari Kawabata.<sup>[166]</sup> Tagore's works were widely translated into English, Dutch, German, Spanish, and other European languages by Czech indologist Vincenc Lesný,<sup>[167]</sup> French Nobel laureate André Gide, Russian poet Anna Akhmatova,<sup>[168]</sup> former Turkish Prime Minister Bülent Ecevit,<sup>[169]</sup> and others. In the United States, Tagore's lecturing circuits, particularly those of 1916–1917, were widely attended and wildly acclaimed. Some controversies<sup>[bowser-alpha 8]</sup> involving Tagore, possibly fictive, trashed his popularity and sales in Japan and North America after the late 1920s, concluding with his “near total eclipse” outside Bengal.<sup>[5]</sup> Yet a latent reverence of Tagore was discovered by an astonished Salman Rushdie during a trip to Nicaragua.<sup>[175]</sup>

By way of translations, Tagore influenced Chileans Pablo Neruda and Gabriela Mistral; Mexican writer Octavio Paz; and Spaniards José Ortega y Gasset, Zenobia Camprubí, and Juan Ramón Jiménez. In the period 1914–1922, the Jiménez-Camprubí pair produced twenty-two Spanish translations of Tagore's English corpus; they heavily revised *The Crescent Moon* and other key titles. In these years, Jiménez developed “naked poetry”.<sup>[176]</sup> Ortega y Gasset wrote that “Tagore's wide appeal [owes to how] he speaks of longings for perfection that we all have [...] Tagore awakens a dormant sense of childish wonder, and he saturates the air with all kinds of enchanting promises for the reader, who [...] pays little attention to the deeper import of Oriental mysticism”. Tagore's works circulated in free editions around 1920—alongside those of Plato, Dante, Cervantes, Goethe, and Tolstoy.

Tagore was deemed over-rated by some. Graham Greene doubted that “anyone but Mr. Yeats can still take his poems very seriously.” Several prominent Western admirers—including Pound and, to a lesser extent, even Yeats—criticised Tagore's work. Yeats, unimpressed with his English translations, railed against that “Damn Tagore [...] We got out three good books, Sturge Moore and I, and then, because he thought it more important to know English than to be a great poet, he brought out sentimental rubbish and wrecked his reputation. Tagore does not know English, no Indian knows English.”<sup>[5][177]</sup> William Radice, who “English[ed]” his poems, asked: “What is their place in world literature?”<sup>[178]</sup> He saw him as “kind of counter-cultur[al],” bearing “a new kind of classicism” that would heal the “collapsed romantic confusion and chaos of the 20th [c]entury.”<sup>[177][179]</sup> The translated Tagore was “almost nonsensical”,<sup>[180]</sup> and sub-par English offerings reduced his trans-national appeal:

anyone who knows Tagore's poems in their original Bengali cannot feel satisfied

with any of the translations (made with or without Yeats's help). Even the translations of his prose works suffer, to some extent, from distortion. E.M. Forster noted [of] *The Home and the World* [that] “[t]he theme is so beautiful,” but the charms have “vanished in translation,” or perhaps “in an experiment that has not quite come off.”

—Amartya Sen, “Tagore and His India”.<sup>[5]</sup>
