[VCE Exam Simulator 2-3-4 Crack](#)

A company has client computers that run Windows Vista.

You need to install Windows 7 on a client computer in a dual-boot configuration with the existing Windows Vista installation, without reducing the size of the partition that contains Windows Vista.

Which actions should you perform in the correct order to accomplish this task? Select the correct actions from the list of actions on the right, and arrange them in the correct order in the left pane.

Reset

Boot the client computer from the Windows 7 installation media.

Choose the Custom installation option during the Windows 7 installation.

Choose the Upgrade installation option during the Windows 7 installation.

Convert the existing disk to a virtual hard disk (VHD).

Launch a Windows 7 installation from within Windows Vista by using setup.exe.

Add a hard disk to the client computer.

Convert the Basic Disk to a Dynamic Disk.

Made by Gill Bezzar
