WP RSS Aggregator Using a Block to Display Feed Items

Free Features

The screenshot displays the WordPress editor interface. On the left is the dashboard sidebar with options like Dashboard, Posts, Media, Pages, Comments, Appearance, Plugins, Users, Tools, Settings, RSS Aggregator, and Collapse menu. The main editor area shows a 'Live Preview' of a 'Feed' block. The preview contains a list of five news items, each with a title, a link, and a 'Published 13 hours ago' timestamp. The right sidebar shows the block settings for 'WP RSS Aggregator Feeds'. The 'Feed Sources' section has a toggle for 'Show all Feed Sources' and a dropdown for 'Feed Sources to Show' with 'ESPN Sports' selected. The 'Display Options' section includes a 'Select Template' dropdown set to 'Default', a 'Feed Limit' input set to '15', and a 'Show Pagination' toggle. The 'Styling' section has a 'Custom CSS' input field. Two red arrows point from the text 'Live Preview' to the preview area and the settings sidebar.
